# Online COVID-19 Return to Work Concepts for Employers, Supervisors, and Managers

## Intended Audience

This online course is most appropriate for employers, supervisors and managers of workers in all industries who have a potential risk for exposure and contracting COVID-19 in their workplaces.  It is applicable to all industries, including Construction, General Industry, Healthcare, Manufacturing and Transportation.

## Learning Objectives

Returning to Work Concepts for Employers, Supervisors, and Managers is an awareness level training designed to provide guidance to employers about prevention and mitigation practices to minimize potential exposure to the virus that causes COVID-19 illness. The materials presented in this training are principally based on guidance from the Occupational Safety and Health Administration (OSHA), the Centers for Disease Control and Prevention (CDC), the National Institute of Environmental Health Science (NIEHS) and other recognized sources.

The goal of this course is to increase health and safety awareness for employers and workers with potential exposure to COVID-19. By the time you complete this module, you should be able to:

- Explain basic facts about COVID-19.
- Assess the risk of workplace exposure to COVID-19.
- Define key steps in worker protection and infection control.
- Identify general safe work practices and methods to prevent and minimize COVID-19 exposure in the workplace.
