

# Online OSHA 10-Hour General Industry

## Intended Audience

Developed by experts in OSHA safety, OSHA 10-Hour General Industry is ideal for anyone who would benefit from the topics covered throughout the course. However, it was specifically designed with the following professionals in mind:

- General industry workers
- Warehousing and manufacturing employees
- Foremen
- Job supervisors
- Inspectors involved in general industry activities

**NOTE:** This course is not intended for employers and employees in the construction industry. We offer a separate course for these individuals called OSHA 10-Hour Construction, which covers safety topics specific to the nuances of construction.

## Learning Objectives

Throughout this online course, you will receive 10 hours of training that covers relevant job site safety topics, including:

- Worker rights and employer responsibilities under OSHA
- Requirements for selecting and wearing personal protective equipment (PPE)
- How to protect oneself and coworkers from slip, trip, and fall hazards
- Major material handling hazards
- Fixed and portable ladders
- Unguarded and inadequately guarded machinery
- Flammable and combustible liquids
- Spray finishing, compressed gases, and dipping and coating operations
- Electrical hazards
- Effects of workplace hazards on the human body and how to protect against them

- Activities that can lead to MSD and RMD injury and illness
- The major difference between acute and chronic health effects
- Emergency egress and access, planning, and fire prevention and protection
- The role of management and workers in improving a company's current safety culture
- Rights that require workers to know the identity and properties of workplace chemicals
- Employer requirements for effectively reducing and preventing employee injuries, illnesses, and fatalities through a safety and health program

With knowledge about these topics, you'll be trained on recognition, avoidance, abatement, and prevention of safety and health hazards in the workplace. You'll also be up-to-date on workers' rights, employer responsibilities, and how to file a complaint with OSHA and the Department of Labor (DOL).

### **OSHA 10 Requirements**

OSHA requires 10-Hour online training to be completed within 6 months from the date when you start the course:

- OSHA30 Course Minimum Passing Score is 70%
- You Have 3 Chances to Pass the OSHA 30 Online Test
- You Receive Immediate Feedback on Incorrect Answers

### **OSHA 10 Card**

Elk Environmental Services is partnered with Clicksafety to offer our clients quality online training. Through Clicksafety your scores are submitted to OSHA and the Department of Labor. Upon approval the OSHA card will be mailed directly to you. Cards typically arrive in 6-8 weeks.
