

Online Fire Prevention for Construction

Intended Audience

This online training is intended for all construction workers, especially those who are a part of the Hazard Recognition Control Team:

- Construction Workers
- Construction Managers
- Construction Superintendents
- Construction Foremen

Learning Objectives

This online safety course will focus on fire prevention by providing numerous fire prevention safety tips. At the end of this training, you will understand how to properly plan an emergency response in order to reduce injuries and damage in the event of a fire. If practiced effectively, your job site should be eligible for a fire prevention safety grant.

Course Topics

- Introduction to Job Site Fire Prevention
- Emergency Response Plan
- Job Site Hazards
- Fire Watch
- Chemical Storage
- Response Equipment
- Summing Up Fire Prevention

Elk Environmental Services is partnered with Clicksafety to offer our clients quality online training.
