

Online Suspicious Mail, Anthrax and Other Concerns

Intended Audience

The Suspicious Mail, Anthrax, and Other Concerns online training is ideal for all those in the general industry sector who may handle packages or parcels through regular job tasks. Individuals who will specifically benefit from this course include the following:

- General industry workers
- General industry management

If you have any concerns as to whether this course is appropriate for you or your industry, please contact us.

Learning Objectives

The Suspicious Mail, Anthrax, and Other Concerns online safety training is an intermediate-level course covering the basic information surrounding identifying and handling suspicious mail in the workplace. Participants can expect mail safety training with relevant issues as prescribed by the Federal Bureau of Investigation (FBI), U.S. Postal Service, and other related government agencies. Through anthrax safety training, participants can expect to learn how to identify and describe the material, transmission, prevention, and treatment of anthrax exposure.

This online training provides a thorough understanding of how to identify suspicious mail and the necessary procedures one must follow to mitigate risk. Additionally, participants can expect a thorough overview of anthrax and best practices for ensuring overall site safety.

Course Topics

- Introduction to suspicious mail and anthrax
- Hazards in the mail
- Handling a suspicious package or letter
- Anthrax
- Transmission of anthrax
- Prevention and treatment of anthrax

Elk Environmental Services is partnered with ClickSafety to offer our clients quality online training.
