

# **Online Walking & Working Surfaces Awareness for Supervisors & Managers for General Industry**

## **Intended Audience**

The Walking and Working Surfaces Awareness for Supervisors and Managers for General Industry training is ideal for all employers and employees within the general industry sector, particularly those in the manufacturing, warehousing, and property businesses. Individuals who will specifically benefit from this course include the following:

- Building owners
- Compliance managers
- Training supervisors/managers
- Facility managers

If you have any concerns as to whether this course is appropriate for you or your industry, please contact us.

## **Learning Objectives**

The Walking and Working Surfaces Awareness for Supervisors and Managers for General Industry online training is an introductory-level course that reviews the 2017 OSHA updates to 29 CFR 1910 Subpart D – specifically slip, trip, and fall hazards, and Subpart I – personal fall protection. Participants can expect in-depth knowledge and understanding of these new requirements and how they are designed to keep those within the general industry sector safe.

This online course provides in-depth knowledge of OSHA's new standards for walking and working surfaces, as well as fall protection.

### Course Topics

- OSHA's final rule
- New Subpart D
- Fall protection and fall protection systems
- Ladder safety
- Required training
