

Online OSHA 30-Hour General Industry

Intended Audience

This OSHA 30-Hour General Industry is ideal for anyone who would benefit from the topics covered throughout the course. However, it was specifically designed with the following professionals in mind:

- General industry workers, including warehousing and manufacturing employees
- Managers and supervisors
- Inspectors involved in general industry activities

This course is not intended for workers in the construction industry. We offer a separate course for these individuals called OSHA 30-Hour Construction, which covers safety topics specific to the nuances of construction. If you are unsure whether this course is appropriate for you, please contact us.

Learning Objectives

Throughout this online course, you will receive 30 hours of training that covers relevant job site safety topics, including:

- Intro to OSHA
- Walking and Working Surfaces
- Fire Protection and Prevention
