Learning Objectives

Named one of OSHA's Focus Four hazards, Struck-By Hazards include situations that expose workers to falling, rolling, swinging, or flying objects. In this course, students will learn:

- OSHA's Focus Four hazards
- Identifying Struck-By Hazards

- How to minimize and/or eliminate Struck-By Hazards
- Common Struck-By Hazards
- How to protect yourself and your team
- The employer's responsibilities

After completing the Focus Four Struck-By Fatality Prevention for Construction Course, workers will understand how to recognize these hazards and what to do when one is encountered on the job.

Elk Environmental Services is partnered with Clicksafety to offer our clients quality online training.
