

Online Bloodborne Pathogens for General Industry

Intended Audience

This Bloodborne Pathogen (BBP) training course is designed for employees, team leads and supervisors in the General Industry sector who are responsible for workplace and job site safety according to OSHA regulations, including those in:

- Manufacturing
- Warehousing and Distribution
- Property Management
- Retail Services
- Healthcare
- Hospitality
- Trade and Transportation

Learning Objectives

This Bloodborne Pathogen (BBP) online safety course identifies three primary bloodborne pathogens, their hazards and what steps to take in the event of accidental exposure. You will be encouraged to increase your education on bloodborne pathogens by reviewing the reference guides 29 CFR 1910.1030. By the end of this online training, you will be shown how to avoid exposure to blood pathogens and where to go to report accidents and exposure incidents.

Course Topics

- Overview of Bloodborne Pathogens (BBP)
- Introduction to BBP
- Transmission

- Major Bloodborne Pathogens
- Prevention/Control of Exposure
- Accidents and Incidents

Elk Environmental Services is partnered with Clicksafety to offer our clients quality online training.
